2014 ANNUAL REPORT

FOREWORD:

The Balanga Water District was formed last May 28, 1980 and was issued a Conditional Certificate of Conformance No. 124 by LWUA last July 22, 1980. Classified as a Category C water district, BLWD was created for the purpose of acquiring, installing, improving, maintaining and operating a water supply system intended to cover 100% of the constituents within its jurisdiction.

The operation and management of the Balanga Water District (BLWD) was put under the partial take-over of the Local Water Utilities Administration (LWUA) from April 2010 to December 31, 2014 installing Engr. Charlito G. Rodriguez as the Interim General Manager. The said partial take-over emanates from the brewing differences between the management and the Board of Directors as well as from the request of the Local Government officials headed by Mayor Jose Enrique S. Garcia III due to the failure of the water district to institute development programs that can cope up with the rapid developmental pace being set by the Mayor.

The present roster of the Board of Directors of Balanga water District is composed of the following:

Mr. Geronimo A. Rueda	- Chairman (Business Sector)
Engr. Oscar B. Banzon	- Vice-Chairman (Professional Sector)
Ms. Lourdes L. Valdecanas	- Secretary (Education Sector)
Dra. Jocelyn Ilaya	- Member (Women's Sector)
Mr. Eduardo P. Tuazon	- Member (Civic Sector)

VISION:

To live up to its mandate of providing potable drinking water to 100% of households in Balanga City by the year 2020.

MISSION:

The Balanga Water District is committed to provide safe and potable water at affordable cost dedicated to satisfy our community's needs thru efficient operation and excellent service 24 hours a day. We also adhere to promote opportunities, safety and health to our employees, to apply advancement in technology, and to ensure and maintain the quality and freshness of our water.

CORE VALUES:

Honest

Transparent

Reliable
