## 2021 ANNUAL REPORT

### FOREWORD:

The Balanga Water District was formed last May 28, 1980 and was issued a Conditional Certificate of Conformance No. 124 by LWUA last July 22, 1980. Classified as a Category B water district, BLWD was created pursuant to PD 198 as amended for the purpose of:

- a) acquiring, installing, improving, maintaining and operating a water supply system intended to cover 100% of the constituents within its jurisdiction;
- b) providing, maintaining and operating waste water collection, treatment and disposal; and
- c) conducting such other functions and operations incidental to work resource development, utilization and development.

The operation and management of BLWD was put under the partial take-over of the Local Water Utilities Administration (LWUA) from April 2010 to December 31, 2014 installing Engr. Charlito G. Rodriguez as the Interim General Manager. The said partial take-over emanates from brewing differences between the management and the Board of Directors as well as from the request of the Local Government officials headed by Mayor Jose Enrique S. Garcia III due to the failure of the water district to institute development programs that can cope up with the rapid developmental pace being set by the mayor. By January 2015, the partial take-over of management and operation by LWUA was lifted and returned the management to water district by installing Engr. Charlito G. Rodriguez as its Regular General Manager.

The present roster of the Board of Directors of Balanga Water District is composed of the following:

Atty. Porfirio DG. Panganiban, Jr.	Chairman	Professional Sector	until December 31, 2022
Mr. Ephraim L. Valdecañas	Vice-Chairman	Education Sector	until December 31, 2026
Dra. Jocelyn A. Ilaya	Secretary	Women Sector	until December 31, 2024
Engr. Oscar B. Banzon	Member	Business Sector	until December 31, 2022
Engr. Imelda T. Rubiano	Member	Civic Sector	until December 31, 2026

## **VISION**

By 2025, the BLWD aims to provide potable water and environmentally compliant waste water collection, treatment and disposal facilities available to the residents of Balanga City and nearby Municipalities.

## **MISSION**

We provide potable water and environmentally compliant waste water treatment facilities made affordable through efficient operation and excellent service.

## **QUALITY POLICY**

The Balanga Water District (BLWD) is committed to its mandate of ensuring customer satisfaction through the efficient and reliable supply of potable and affordable water to the citizens of Balanga City.

We hold true to our core values by complying to all relevant statutory and regulatory requirements.

We commit to sustained growth through the continual improvement of our processes in order to ensure customer satisfaction through excellent service.

It is therefore our commitment to ensure that quality is never compromised in all that we do.
